Continuation Sheet (PTO-303) 09/963,577

Continuation of 2. NOTE: The proposed amendment to claim 1 incoporates the subject matter of claim 9, but leaves out the subject matter of claim 7 from which it depends. This is a new issue because claim 7 specifically requires the convex portion to be on the male body and is required when incorporating the subject matter of claim 9. However, claims 8, 10 & 11 require the convex portion on the female body and this may contradict claim 1 if the convex portion is on the male body as indicated in "peripheral corners of the straight portions at both right and left sides and the convex portion at a center in the male body are notched to form a one-level-lower stepped portion, which is allowed to be fitted into the butting portion of the female body in a manner of overlapping" (lines 14-17). The scope of the claims are unclear. This is a new issue requiring additional searching and consideration as to the scope of interpretation.
